JOURNAL OF ELECTROANALYTICAL CHEMISTRY

# Subject index

Abnormal IR feature
Novel properties of dispersed Pt and Pd thin layers supported on GC for CO adsorption studied using in situ MS-FTIR reflection spectroscopy (Lu et al.) 19
Acetonitrile
The reactive chemisorption of acetonitrile on Pt(111) and Pt(100) electrodes as examined by in situ infrared spectroscopy (Morin et al.) 213
A.c. polarography
Standard electrode reaction rates of bis(biphenyl)chromium(I) in *N,N*-dimethylformamide (Orlik, Gritzner) 121
Adsorption
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195
Alkanethiolate monolayers
Voltammetric reductive desorption characteristics of alkanethiolate monolayers at single crystal Au(111) and (110) electrode surfaces (Zhong et al.) 9
Amino acids
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
Antigens
Direct immunosensing using differential electrochemical measurements of impedimetric variations (Maupas et al.) 165
Association
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99

Benzotriazole
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
Bilayers
An electrochemical study of poly(paraphenylene) in conductive polymer bilayer electrodes (Kvarnström, Ivaska) 67
Binding sites
Voltammetric reductive desorption characteristics of alkanethiolate monolayers at single crystal Au(111) and (110) electrode surfaces (Zhong et al.) 9
Bis(biphenyl)chromium(I)
Standard electrode reaction rates of bis(biphenyl)chromium(I) in *N,N*-dimethylformamide (Orlik, Gritzner) 121
Borax buffer
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129

Cadmium
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25
Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105
Carbon dioxide
Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105
Carbon monoxide formation
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1
Catalysis
Electrochemical characterization of the $\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$ complex (Tzedakis et al.) 187
Characteristic diffusion length
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89
Characterization
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
Chemical diffusion coefficient
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89
Chemisorption
The reactive chemisorption of acetonitrile on Pt(111) and Pt(100) electrodes as examined by in situ infrared spectroscopy (Morin et al.) 213
Chloride
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
Electrodeposition of rhodium. Part 1. Chloride solutions (Pletcher, Urbina) 137
CO adsorption
Novel properties of dispersed Pt and Pd thin layers supported on GC for CO adsorption studied using in situ MS-FTIR reflection spectroscopy (Lu et al.) 19
Cobalt
Electrodeposition of zinc + cobalt alloys: initiations and development of anomalous co-deposition (Gómez, Vallés) 157
Co-deposition
Electrodeposition of zinc + cobalt alloys: initiations and development of anomalous co-deposition (Gómez, Vallés) 157
Copolymers
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99
Copper
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25

Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105
Copper electrode
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
Copper sulphate
Fingering instability in thin-layer electrodeposition: general trends and morphological transitions (López-Salvans et al.) 205
Cyclic voltammetry
Standard electrode reaction rates of bis(biphenyl)chromium(I) in *N,N*-dimethylformamide (Orlik, Gritzner) 121
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195

Dendritic growth
In situ observation of lithium deposition processes in solid polymer and gel electrolytes (Osaka et al.) 153
Differential pulse polarography
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25
Diphosphine borane
Polypyrrole bearing diphosphine borane groups: a new way to prepare polymer-supported phosphine ligands. Application to palladium catalysed reactions (Stéphan et al.) 5
Dispersed Pt and Pd
Novel properties of dispersed Pt and Pd thin layers supported on GC for CO adsorption studied using in situ MS-FTIR reflection spectroscopy (Lu et al.) 19
Double layer
SNIFTIRS studies of the double layer at the metal|solution interface. Part 1. Single crystal gold electrodes in aqueous perchloric acid (Calvente et al.) 49
Double layers
On the equivalence of free energy and pressure profile methods for determining the mechanical properties of double layers (Mulder, Bharaj) 59

Electrocatalytic activity
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1
Electrochemical reduction
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1
Electrochemistry
An electrochemical study of poly(paraphenylene) in conductive polymer bilayer electrodes (Kvarnström, Ivaska) 67
Direct immunosensing using differential electrochemical measurements of impedimetric variations (Maupas et al.) 165
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
Electrochemical characterization of the $\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$ complex (Tzedakis et al.) 187
Electrodeposition
Novel properties of dispersed Pt and Pd thin layers supported on GC for CO adsorption studied using in situ MS-FTIR reflection spectroscopy (Lu et al.) 19
Electrodeposition of rhodium. Part 1. Chloride solutions (Pletcher, Urbina) 137
Electrodeposition of rhodium. Part 2. Sulfate solutions (Pletcher, Urbina) 145
Electrodeposition of zinc + cobalt alloys: initiations and development of anomalous co-deposition (Gómez, Vallés) 157
Electrode reaction rates
Standard electrode reaction rates of bis(biphenyl)chromium(I) in *N,N*-dimethylformamide (Orlik, Gritzner) 121
Electron transfer mechanism
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25

Fingering instability
Fingering instability in thin-layer electrodeposition: general trends and morphological transitions (López-Salvans et al.) 205
Free energy
On the equivalence of free energy and pressure profile methods for determining the mechanical properties of double layers (Mulder, Bharaj) 59
FTIR
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195

Glassy carbon electrode
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1
Glycine
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
Graphite
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 1. High resolution slow scan rate cyclic voltammetric studies and modeling (Levi, Aurbach) 79
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89

High pressure carbon dioxide
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1

Immunodetection
Direct immunosensing using differential electrochemical measurements of impedimetric variations (Maupas et al.) 165
Impedimetric variations
Direct immunosensing using differential electrochemical measurements of impedimetric variations (Maupas et al.) 165
Inhibitors
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
In situ conductivity
Effects of the magnetic field on the polyaniline film studied by in situ conductivity measurements and X-ray diffraction (Cai et al.) 45
In situ FTIRS
Novel properties of dispersed Pt and Pd thin layers supported on GC for CO adsorption studied using in situ MS-FTIR reflection spectroscopy (Lu et al.) 19
In situ observation
In situ observation of lithium deposition processes in solid polymer and gel electrolytes (Osaka et al.) 153

Intercalation
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 1. High resolution slow scan rate cyclic voltammetric studies and modeling (Levi, Aurbach) 79
IR spectroscopy
The reactive chemisorption of acetonitrile on Pt(111) and Pt(100) electrodes as examined by in situ infrared spectroscopy (Morin et al.) 213

Kinetics
Standard electrode reaction rates of bis(biphenyl)chromium(I) in *N,N*-dimethylformamide (Orlik, Gritzner) 121

Lithium
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 1. High resolution slow scan rate cyclic voltammetric studies and modeling (Levi, Aurbach) 79
Lithium intercalation
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89
Lithium secondary battery
In situ observation of lithium deposition processes in solid polymer and gel electrolytes (Osaka et al.) 153

Magnetic field
Effects of the magnetic field on the polyaniline film studied by in situ conductivity measurements and X-ray diffraction (Cai et al.) 45
Manganese
Electrochemical characterization of the $\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$ complex (Tzedakis et al.) 187
Mechanical properties
On the equivalence of free energy and pressure profile methods for determining the mechanical properties of double layers (Mulder, Bharaj) 59
Mechanism
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 1. High resolution slow scan rate cyclic voltammetric studies and modeling (Levi, Aurbach) 79
Metal dithiolene clusters
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25
Metal|solution interface
SNIFTIRS studies of the double layer at the metal|solution interface. Part 1. Single crystal gold electrodes in aqueous perchloric acid (Calvente et al.) 49
Modified ruthenium oxide electrode
Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105
Morphology
Fingering instability in thin-layer electrodeposition: general trends and morphological transitions (López-Salvans et al.) 205
Multi-step reactions
Applicability of d.c. relaxation techniques to multi-step reactions (Nagy et al.) 33

Nanocomposite films
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
Nickel
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
Nickel oxide electrode
Redox behavior of the nickel oxide electrode system: quartz crystal microbalance studies (Cheek, O'Grady) 173
Numerical modelling
Applicability of d.c. relaxation techniques to multi-step reactions (Nagy et al.) 33

Occlusion
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
Oxidation
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195

Palladium catalyst
Polypyrrole bearing diphosphine borane groups: a new way to prepare polymer-supported phosphine ligands. Application to palladium catalysed reactions (Stéphan et al.) 5
Perchloric acid
SNIFTIRS studies of the double layer at the metal|solution interface. Part 1. Single crystal gold electrodes in aqueous perchloric acid (Calvente et al.) 49
Photocurrent response
A study of the copper electrode behavior in borax buffer solutions containing chloride ions and benzotriazole-type inhibitors by voltammetry and the photocurrent response method (Zhou et al.) 129
PITT
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89
Platinum
Direct immunosensing using differential electrochemical measurements of impedimetric variations (Maupas et al.) 165
Platinum electrode
Electrochemical behaviour of amino acids on Pt(*h,k,l*): a voltammetric and in situ FTIR study. Part 1. Glycine on Pt(111) (Huerta et al.) 179
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195
The reactive chemisorption of acetonitrile on Pt(111) and Pt(100) electrodes as examined by in situ infrared spectroscopy (Morin et al.) 213
Polyaniline
Effects of the magnetic field on the polyaniline film studied by in situ conductivity measurements and X-ray diffraction (Cai et al.) 45
Polyelectrolytes
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99
Polymeric films
Polypyrrole bearing diphosphine borane groups: a new way to prepare polymer-supported phosphine ligands. Application to palladium catalysed reactions (Stéphan et al.) 5
Poly(paraphenylene)
An electrochemical study of poly(paraphenylene) in conductive polymer bilayer electrodes (Kvarnström, Ivaska) 67
Preparation
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
Pressure profile
On the equivalence of free energy and pressure profile methods for determining the mechanical properties of double layers (Mulder, Bharaj) 59

Quartz crystal microbalance
Redox behavior of the nickel oxide electrode system: quartz crystal microbalance studies (Cheek, O'Grady) 173

Reaction rate
Structural effect on the rate of $CO_2$ reduction on single crystal electrodes of palladium (Hoshi et al.) 15
Redox behavior
Redox behavior of the nickel oxide electrode system: quartz crystal microbalance studies (Cheek, O'Grady) 173
Reduction
Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105
Reduction of $CO_2$
Structural effect on the rate of $CO_2$ reduction on single crystal electrodes of palladium (Hoshi et al.) 15
Relaxation techniques
Applicability of d.c. relaxation techniques to multi-step reactions (Nagy et al.) 33
Rhodium
Electrodeposition of rhodium. Part 1. Chloride solutions (Pletcher, Urbina) 137
Electrodeposition of rhodium. Part 2. Sulfate solutions (Pletcher, Urbina) 145
Ruthenium oxide electrode
Reduction of carbon dioxide on ruthenium oxide and modified ruthenium oxide electrodes in 0.5 M $NaHCO_3$ (Popić et al.) 105

Schultz–Flory distribution of hydrocarbons
Electrochemical $CO_2$ reduction on a glassy carbon electrode under high pressure (Hara et al.) 1
Single crystal gold(111) and (110)
Voltammetric reductive desorption characteristics of alkanethiolate monolayers at single crystal Au(111) and (110) electrode surfaces (Zhong et al.) 9
Single crystal gold electrode
SNIFTIRS studies of the double layer at the metal|solution interface. Part 1. Single crystal gold electrodes in aqueous perchloric acid (Calvente et al.) 49
Single crystals of Pd
Structural effect on the rate of $CO_2$ reduction on single crystal electrodes of palladium (Hoshi et al.) 15
SNIFTIRS
SNIFTIRS studies of the double layer at the metal|solution interface. Part 1. Single crystal gold electrodes in aqueous perchloric acid (Calvente et al.) 49
Squaric acid
On the electrochemical behaviour of squaric acid on Pt(*hkl*) electrodes in acid solutions: a voltammetric and in situ FTIRS study (Rodes et al.) 195
Staged phases
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 2. Potentiostatic intermittent titration and in situ XRD studies of the solid-state ionic diffusion (Levi et al.) 89
Sulphate
Electrodeposition of rhodium. Part 2. Sulfate solutions (Pletcher, Urbina) 145
Supported ligands
Polypyrrole bearing diphosphine borane groups: a new way to prepare polymer-supported phosphine ligands. Application to palladium catalysed reactions (Stéphan et al.) 5

Thin film electrodes
The mechanism of lithium intercalation in graphite film electrodes in aprotic media. Part 1. High resolution slow scan rate cyclic voltammetric studies and modeling (Levi, Aurbach) 79
Thin layer
Electrochemical characterization of the $\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$ complex (Tzedakis et al.) 187
Thin-layer electrodeposition
Fingering instability in thin-layer electrodeposition: general trends and morphological transitions (López-Salvans et al.) 205
Titanium dioxide
Preparation and characterization of nanocrystalline composite (nanocomposite) films of titanium dioxide and nickel by occlusion electrodeposition (Zhou et al.) 111
$\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$
Electrochemical characterization of the $\{(TPA)Mn(III)O_2Mn(IV)(TPA)\}_2(SO_4)_3$ complex (Tzedakis et al.) 187

Vinylferrocene
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99
Vinylpyridine
Effects of adsorption and association with multiply charged counterions on the electrochemical responses of an electroactive polyelectrolyte (Kobayashi, Anson) 99
Voltammetric reductive desorption
Voltammetric reductive desorption characteristics of alkanethiolate monolayers at single crystal Au(111) and (110) electrode surfaces (Zhong et al.) 9

XRD
Effects of the magnetic field on the polyaniline film studied by in situ conductivity measurements and X-ray diffraction (Cai et al.) 45

Zinc
Rat liver metallothioneins are metal dithiolene clusters (Studničková et al.) 25
Electrodeposition of zinc + cobalt alloys: initiations and development of anomalous co-deposition (Gómez, Vallés) 157
Zinc + cobalt alloys
Electrodeposition of zinc + cobalt alloys: initiations and development of anomalous co-deposition (Gómez, Vallés) 157
